

IMPLEMENTATION STRATEGY

Implementation of the RIDS will require additional phases to plan, design, finance and construct the improvements. Assuming Phase 1 included the Master Plan, subsequent phases include the following:

- **Phase 2 Feasibility Study** – Further study of the preferred alternative from the Master Plan to determine pipeline routes, pipe and pump sizes, specific storage locations, materials, detailed costing, detailed scheduling and a focused funding strategy.
- **Phase 3 Engineering Design** – Includes design, permitting and bidding of projects.
- **Phase 4 Construction** – Construction and startup of projects.

Project phases will be implemented on a subregional basis as developed in the Phase 1 Master Plan.
